

TUESDAY, JANUARY 17, 1893.

GOT IN THEIR WORK.

There has been a long struggle between the city of Oakland and the Central Pacific Railroad Company to see who or which should own some 10,000 acres of mud flats along the front of that town. Of course the Railroad folks wanted it, and of course the vast majority of the citizens of Oakland wanted to keep the property in the hands of the city, because it was the water front, and the only means of access to the town by water was over this mud flat. Somehow the C. P. folks got the matter into the United States Courts, but they did not seem to be highly pleased with the prospect of coming out first best, so they gave their attention to Oakland's Board of Supervisors, and with the usual result, the Supervisors dismissed the suits, and now the city of Oakland don't own a single inch of water front. The San Francisco Chronicle says that the citizens are as mad as March hares, and openly vow their belief that a very large sized "sack" was opened. We are getting used to it pretty much as the old lady said she supposed the eels had to skinning, and have about come to the conclusion that it don't amount to much as kick. Somehow this great corporation get just what they want, both in Nevada and California. In our sister State the people elected a "Commission" that was just a going to straighten 'em with a snap, but lo! at the very first meeting it was found the Commission stood: for the people, one; for the railroad, two. In this State let a man oppose the Road, and they flatten him out thinner than a flap jack made without "rising." Perhaps the people will come to their wits some day, and stand by those who stand by them, but probably not in this generation. When the C. P. wants anything it is just about as well as to let 'em have it without any fuss, they get it anyway.

AS USUAL.

The person who wrote the long article for the San Francisco Post headed "The Church of America," made the usual mistake, of not first finding out what the churches of his own city teach. He lays down ten precepts or propositions of what this American church must and will teach and believe, and out of the ten, there is but one that is not taught by nearly every church in his own city. The difficulty with nearly all who undertake to reform the churches is that they are ignorant of what the churches teach, they take doctrines at second hand. Take away from Ingersoll his straw men, and his mouth would be shut, and so with nine-tenths of those who so glibly condemn the churches. The beliefs of the Protestant churches, and what those outside of them represent those beliefs to be, are two very different things.

During the performance Saturday evening there came near being a rush out of the building, but quiet was restored by there being some cool heads in the audience, and on the stage. Why crowds of people will persist in acting the consummate fool, is past our comprehension, but let there be a number of persons gathered under any circumstances where it is desirable all should be orderly in order to be safe, and nine out of every ten even among men, are insane in an instant. You poor devils who started to run Saturday evening, write up somewhere, where you can see it every hour in the day, the words "Keep Cool."

Saturday evening's Virginia Chronicle gives the School Trustees of that city, a severe warning. If what the Chronicle intimates is true, the Trustees are a pack of ignorant libertines, utterly unfit for the positions they occupy. The Chronicle demands a thorough investigation at the hands of the people, and we hope they will get it. If they are guilty, smokes them out neighbor, and every honest man and honest journal will stand by you.

When the people of the East come to fully understand the Chinese question they will be as strongly anti Chinese as we are on the Pacific. All it wants is the personal contact which comes by having them in all parts of the country, and the education of the whole nation on this subject will be completed. If they brought nothing worse than smallpox, they would not be half so bad, but they are centers of moral infection of the worst types of degradation.

Press dispatches say it is learned from inside sources that ex-Congressman R. M. Daggett, of Nevada, is strongly urged for United States Minister to the Sandwich Islands, and that his nomination may be expected at any day.

NEWS OF THE MORNING.

Postmaster Adkison of Virginia City, through the influence of Senator Jones, will undoubtedly be reappointed, and there are indications that all the other prominent Nevada Postmasters will, at least for the present, remain undisturbed.

There are rumors that the tenure of the office of the present Director of the Mint, ex-Congressman Burchard, may be terminated this Winter, and the vacancy thus caused may be filled by the promotion of James Crawford, now Superintendent of the Carson Mint. State Senator M. J. Farrell would then, it is stated, be appointed to succeed Crawford as Superintendent.

United States District Judge Hillyer, having become incapacitated for judicial labor by an attack of softening of the brain, a movement to provide for his retirement on full pay by means of a bill which will also cover the case of Justice Hunt of the United States Supreme Court, who, under law applicable to Federal Judges, will not be entitled to retirement for nearly two years. United States District Attorney C. S. Varian is prominently pushed for advancement to Judge Hillyer's position in the event of the latter's retirement.

A shooting scrape occurred in Graham & Co.'s saloon, Eureka, yesterday, between Dick Guiberson and George Hill, the former being shot through the right breast, the ball striking the spine, from the effects of which he died at half-past 12 o'clock. Hill received one shot in the leg, probably not serious, though it is not known yet whether the bone is broken. Hill fired all the shots in his six-shooter. Guiberson fired but one shot, the remaining five chambers of his pistol not going off. The affair has caused great excitement there, as it is the first shooting that has been done there in a long time, and it is predicted that other scrapes will come out of this. Hill has been in several pistol fights and has been looked upon as a bad man. Guiberson is well-known throughout the Pacific Coast, and had a great many friends. He was a powerful man, but cheerful and full of fun. He will be buried in Eureka to-day.

Politics in California, State and local, are beginning to take shape to a considerable extent. In the matter of gubernatorial candidates opinions are settling down on the choice of the following Republicans: Horace Davis, General Evans and M. M. Estee, with Governor Perkins in the background as a possible dark horse. It is conceded that Davis would run well, and Estee is considered a good exponent of the anti-machine wing of the party. The Democrats are disposed to choose between General Stoneman, ex-Lieutenant Governor Johnson, Hearst, the mining man ex-Controller Brown. Stoneman is considered particularly strong on account of his anti-monopoly record. Hearst, it is believed, will make quite a talk to a liberal amount. Denis Kearney announces his intention of coming to the front again. He says that by urgent request of the people, both of the city and country, he will soon begin the organization of clubs and put an anti-monopoly ticket in the field. He thinks a fusion with the Democracy, and perhaps with side factions, as against the Republicans, not unlikely, and says that in about two weeks he will start his campaign on the sand lot.

OFFICES, AND WHO WOULD LIKE THEM.

The dispatch published in our "News of the Morning," says that a number of changes in the Federal offices in this State are contemplated. Hillyer is to be pensioned on account of softening of the brain, and Hon. C. S. Varian put in his place. The removal of the present incumbent no doubt must soon come, and we think Mr. Varian would fill the bill if he chooses to accept the position, which we should very much doubt. It would not be an ambitious move for a young man of his ability to thus shelve himself for life in a place the remuneration and honors of which are both very small.

U. S. Marshal Ash will probably go, but whether Mr. Lammon will get the place remains to be seen. He certainly won't get it if the interests of the Republican party in Nevada are consulted.

We don't believe there will be any change in the Carson Mint. Superintendent Crawford has always done well and no doubt will be perfectly satisfied to remain where he is. Senator Farrell is a good man, but he won't be in Crawford's place "this run of shad." The fact probably is, this dispatch was put out by some interested parties as a feeler. It has been pretty well understood for some time that there might be a change in the District Judge and Marshal, and somebody at Washington would like to know how certain men stand at home. The offices are not worth any fight, so they will probably go to personal friends of Senator Jones, but that gentleman wants to keep his wad-eye peeled on this business for his term of office will come to an end in due time, and then!

SHEEP OWNERS.

Sheep owners in San Buenaventura are killing the lambs as fast as they are born, the feed being so scarce to sustain mothers and young.

The Palace Silk Manufacturing Company at San Jose have just turned out seventy-five yards of silk cloth, the first production of the factory.

Immense deposits of stone coal of excellent quality, and practically inexhaustible, exist in Modoc county, and will be developed when the railroad is built through the country.

Olive Logan says: "I don't think I ever saw a married woman whose face and bearing conveyed the idea of such absolute innocence and virgin purity as do those of Mrs. Langtry."

It is reported that the grandfather of the Speaker in Congress was an Irishman named McKeever, that his father shortened the name to Keever, and that he himself changed it to Keifer.

Nash Webster, according to the Baltimore American, once found himself in Baltimore without a red cent in his pocket. He started a singing school, and soon had money enough to take him to Boston.

The products of the Ashland (Oregon) woolen mills during the past year were worth from \$40,000 to \$50,000, and something over 100,000 pounds of wool was used. This year the capacity will be increased from 25 to 50 per cent.

A writer in the Modesto Herald says a collection was taken up in that place to procure a suitable testimonial to be presented to a gentleman in recognition of his efforts to enforce the Sunday law, and that the article selected was a silver punch bowl.

Swarms of wild geese are devastating the San Joaquin Valley, pulling up the young wheat by the roots. Thousands of bushels are destroyed daily, and though the farmers make vigorous war upon them, their numbers are not materially reduced.

Leopold von Ranke, the German historian, has just celebrated his eighty-seventh birthday. At this age he is a strong and active man, in full vigor of mind and body. He has just published the third and fourth volumes of his "Universal History."

The Late Disaster.

The horrible disaster on the Hudson River Railroad yesterday, just at the point where that great line enters the limits of the city of New York, will cause a thrill of terror wherever reported. But the serious feature remains to be developed. It has been observed through many years that such disasters never come singly. Railroad men always anticipate at least three in rapid succession. This may smack somewhat of superstition, but the fact, nevertheless, remains that one such disaster is almost invariably quickly followed by others. Why this should be so, of course nobody can explain. But unless this is to be an exceptional case, we may look for other fatal collisions at any moment. Where the lightning may strike nobody can tell; but every railroad manager is unquestionably extremely anxious just now.—S. F. Post.

Those who have read Buckle's "Introduction" will remember the singular statement made there, that crimes, disasters and disease run in waves; that at one time crimes will be committed on property, at another on the person, and that even the instruments of assault correspond in wave periods. The writer also says that the method of suicide follows some mysterious law. At one period, poison will be taken; at another, throats will be cut and again the poor wretches drown themselves. There were three railroad disasters during the past ten days, one collision and two by bridges breaking down.

The Route of the Smallpox.

The smallpox which is now causing so much anxiety in the Eastern States first made its appearance on board the City of Tokio, in this harbor, three years ago. Notwithstanding the efforts of the Health Department, the infection was carried on shore, and for a year past has been endemic in this city, and is now, with the exception of some sporadic cases, supposed to have died out. The infection was carried East by the great routes of travel. It made its appearance in Chicago before it did in New York and Philadelphia. It has been endemic for the last year also in the cities named. The Chinese carry it with them wherever they go. They are now established in every State in the Union with the exception of two. They conceal the disease when it breaks out among them. It prevails in China-town in this city before it is discovered here. An unusual increase of mortality is about the only way we have of finding out that the disease is among them. The smallpox, which has made its appearance among some emigrants at Eastern ports, is the return of the first wave of smallpox, which, beginning here seven years ago, also went the rounds. It was endemic in London two years ago, and thence passed to the Continent. There is only one course to pursue in the presence of the scourge—vaccination. The Medical Review of Chicago calls attention to the fact that since 1878 only five cases of smallpox have occurred among the school children of that city, though there has been much of the disease around all the time, especially last year. But all the school children had to be vaccinated. Our experience in this city has been exactly similar.—[S. F. Bulletin.]

Get It Right.

A New York correspondent of the Philadelphia Leader says of some folks in Gotham:

I don't believe any idiot in the world can beat a New York idiot. Once started he beats the deck. For the fun of the thing I watched the shoppers in a great jewelry store one evening. I was amazed. Clocks, with side cases, ranging in price from \$500 to \$5,000 were easily sold. Pins for neck or shirt cost ranging from \$10 to \$150 were in great demand. But gold watches carried off the honors, and the demand for American makes was noticeable. The larger establishments have tumbled to the fashionable craze for American watches. They import Swiss works, put them in American cases, stamp their own names on them, and sell them at fabulous rates. I wish you could see the fobs and fob-chains for the lady-daws. The entire cigarette size of boys now display the old-fashioned watered ribbon with seals, fancy or plain. Nothing is prettier, nothing more useful. I wear one myself. An old pawnbroker told me to-day that at a recent sale he disposed of over twenty old-time seals, some with crests, initials and coats-of-arms, at prices that astonished him. Everything in that line is eagerly caught up, put in shape and quickly sold.

Western Women.

Perhaps the most strange characteristic of the women of the West is the even undue importance they place on the intellectual life. It is a natural result of the early deprivations of the parents who, in going to a new country, relinquished the educational privileges of the East, and to whose receding visions the opportunities of schools, libraries, art galleries and social culture were blessings that brightened as they took their flight. As an almost invariable sequence, their children were reared to consider these the very essentials of life. The mother might necessarily be confined to a life limited in its realizations but infinite in its aspirations and out of this grew the feeling that the daughter should enjoy those privileges denied to herself. Thus the present generations of the women of the West are the ones who recruit the intellectual ranks.—[Boston Traveller.]

THE WEEKLY JOURNAL.

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at 2.50 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the country. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

HALL'S
VEGETABLE SICIALIAN
HAIR
RENEWER.

This standard article is compounded with the greatest care. Its effects are as wonderful and satisfactory as ever. It restores gray or faded hair to its youthful color. It removes all eruptions, itching and dandruff, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong. As a dressing nothing has been found so effective or desirable.

Dr. A. A. Hayoe, State Assayer of Massachusetts, says of it: "I consider it the best preparation for its intended purposes."

BUCKINGHAM'S DYE,

FOR THE WHISKERS.

This elegant preparation may be relied on to change the color of the beard, from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being in one preparation, and quickly and effectively produces a permanent color which will neither rub nor wash off.

Emerson's Minstrels are coming.

The area of Pyramid Lake is 205 square miles.

Candelaria is looking up. There are three faro games running in the town, and all are well patronized.

During the two fiscal years ending June 30, 1881, the Carson Mint made a profit of \$284,637.89 on the coinage of silver.

Geo. C. Thaxter, of Carson, made the remarkable score of 50 out of a possible 50, at the 500-yard target, and on a wager plugged the bulls-eye the eleventh time.

The Asylum contractors expect to have the building finished by the 29th of this month. An opportunity will be offered the public about that time to inspect the building.

J. M. Dean, of Boca, petitions the Superior Court of Nevada county, Cal., to declare him an insolvent. His assets are nominal, and his liabilities are said not to exceed a few hundred dollars.

The Reno Times made its first appearance to the public last evening. It is a sixteen column paper, neatly printed and will be issued every day (Sundays excepted) at 3 o'clock P. M. The proprietors are Messrs. Waldo and Julien. The JOURNAL wishes them success in their new enterprise.

County Clerk Mahany of Storey county failed to account for \$1,000 deposited by the plaintiff in the suit of Abernathy vs. the Con. Virginia Mining Company. Mahany has been in San Francisco, and acknowledged being short that much. His bondsmen have called a meeting for to-day, and he has telegraphed that he will be at Virginia this morning.

Sacramento people silver and complain over a quarter of an inch of ice and talk of emigrating to Los Angeles or San Diego until the cold snap is over. How would it be with some of them here, with the mercury below zero, and on getting out of bed in the morning have a fellow's feet stick to the floor while lighting a fire to thaw out his mustache and beard so as to get his mouth open.

The Virginia Chronicle in speaking of General Hagerman's presence of mind at the theater Saturday evening compliments that gentleman very lightly and winds up in this fashion:

All honor to General Hagerman. Reno owes him a deep debt of gratitude for that shout of his from his cheap seat in the gallery: "The fire's in Chinatown!"

Now we won't have it go abroad that Mr. Hagerman occupied a cheap seat. The gallery of the Reno Theater is always filled by the fashion of our city and the seats sell for a dollar. Mr. Hagerman occupied a front seat.

Son Wanted.

The JOURNAL is requested to insert the following:

PARKERSBURG, West Va., Jan., 1882.
J. Landrum Holmes' mother offers \$50 reward for finding her son, and putting her in communication with him, and letting him know that she has returned from her missionary work in China, and is with her brother, R. A. Little, in Parkersburg, West Va. He was last heard of in Utah, November, 1881.

The Late Richard Guiberson.

Richard Guiberson, who was killed in Eureka day before yesterday, was well known on the Comstock and throughout the State. He was a sporting man of the better class, about 40 years of age, and a whole-souled, genial fellow, whose untimely death will be regretted by more friends than many a man of more pretensions can number. He was unmarried.

Attention Odd Fellows.

Members of Washoe Lodge No. 8, Truckee Lodge No. 14, and Reno Lodge No. 19, I. O. O. F., are particularly requested to attend a special meeting this evening, January 17th, at half past six o'clock, for the purpose of assisting in the institution of "Ridgely Degree Lodge," at the hall of Truckee Lodge, No. 14. The Grand officers will be present. A full and punctual attendance is desired.

The Salary Law.

The following figures show the savings in the different county offices by the Salary Law during the year just ended over the fee system in 1881:

Sheriff's Office	\$1,131.75
Clerk's	3,036.95
Recorder's	2,118.15
Treasurer's	587.17
Assessor's	815.72
District Attorney	115.00
Commissioners	195.00
Total saving	\$7,978.74

The Small-Pox Patients.

The Truckee Republican of the 14th says: "From Dr. Rhodes, who came up from the quarantined emigrant cars yesterday afternoon, we learn that the man who has the small-pox is convalescing rapidly, and will be all right in a week or so. Only one other case has appeared among the other passengers, and this is a very mild case of varioloid. The latter patient is able to be up and around, and takes most of the care of his partner. If no other cases are developed by this evening the cars will be thoroughly fumigated and attached to No. 6 to-night and sent on through to Sacramento. A combination box car has been fitted up comfortably, and the two small-pox patients will be kept there until they have entirely recovered. Two children, aged 5 and 7 years, belonging to one of the emigrants, have been taken down with diphtheria, but it is very mild, and Dr. Rhodes says they will be all right in a few days. Conductor Priddy and his brakemen are having a fine time hunting and fishing. Their vaccinations are beginning to 'take,' which causes them slight inconvenience; otherwise they are contented and happy, and don't care if the quarantine lasts all winter."

A Monster Locomotive.

A large engine is now being constructed at the Sacramento car shops, to be used over the heavy grade of the Tehachapi Pass on the Southern Pacific route. The Record-Union says: It will probably be the heaviest and most powerful railroad engine at the present time. Its weight will be when in running order, about sixty tons or about one-half greater than the present strongest engines. This is exclusive of tender, but including the latter, and the fuel and water for use, the weight of the engine being built will be about ninety tons. The hauling capacity will also be one half greater than any engine now in use by the company, and it is expected it will draw twelve full loaded cars over the pass. As against from seven to nine cars, the largest number now taken over the loop by a single engine. It will have four pairs of driving wheels 4 1/2 feet in diameter with open truck forward. Every part is increased in size and strength, in proportion to the increased power it is to have. There are some changes in the usual style of construction to add strength and compactness to it. The monster will likely be completed and ready for a test of its powers as early as sometime in March.

At the Foundry.

Nearly 200 persons visited the Reno Foundry Sunday afternoon to witness the casting of a fifteen ton pump-bob to be used at the Union Shaft, Virginia. The work was done under the direction of Mr. Matt Rhein, foreman of the works. The work was very interesting and was explained to the spectators by Mr. Rhein as it proceeded. The molten iron was taken from the blast furnace in a large vessel holding five tons and carried from there by a powerful derrick to the flask or mould into which it is poured. During this process sparks or particles of the iron fly in every direction and present (as a bystander remarked) "a miniature display of fireworks." The iron as it comes out of the furnace is white and looks something like the light produced by burning a piece of calcium. Everything moved as if by clock work, and all felt that they were well paid for their visit. The immense casting will take several days to cool sufficiently to be handled.

It is reported that George I. Lammon, formerly United States Marshal for Nevada, will shortly be restored to his old position, vice his brother-in-law, Ash, whose removal is said to be quite certain.

A \$980-Dollar Gold Nugget Found in Osceola District.

A gold nugget, valued at \$980, was found from a letter written by Jas. S. Matson, under date of Osceola, Jan. 3d, to M. B. Garaghan of this place, was found in that district a few days before by Chinamen in a claim near those owned by the late Geo. G. Blair. They were afraid to let it out, on account of previous trouble, that so large a nugget had been found, so it was cut up and sold in \$40 chunks. The Chinamen finally got into a row among themselves over the division and one of them reported the find and gave the value of the nugget at \$980. The aggregate value of the pieces sold go to show that the nugget was fully as valuable as stated by the Chinamen. This is the second largest nugget found in the district. That found in '77 was worth about \$4,000. B. Hampton, of the firm of Godby & Co., who contemplate bringing in water to the placers, was in the district at the time buying up nuggets but failed to get wind of this one before it was cut up.—Ward Reflex, 10th.

Do not be persuaded to buy a "Cheap John" piano, but purchase the Henry F. Miller piano, which is used by artists more than all the other makes combined.

M. J. Szymon, Agt.

Have you seen those beautiful glass frames, statuettes, vases, toilet sets and other cases at Osburn & Shoemaker's.

Notice.

If you want pianos and organs, or music books, sheet music, or anything in the music line you will please call on Brookins. We can safely say that Mr. Brookins has the nicest assortment of pianos, organs, sheet music, music books and every thing in the music and variety line we ever saw outside of any of the larger cities; and for prices he beats San Francisco or any house on the coast. His instruments come direct from the East, and he has the agency of thirteen different factories. Brookins can supply you with any make you desire. See his B. F. Baker upright piano which is never out of tune. Price \$375. See his Nevada organ, the finest parlor organ in the world, price \$175. Brookins fully guarantees everything, and trades new instruments for old ones, allowing just what the old ones are worth. Mr. Brookins does all kinds of repairing to organs, pianos and all other musical instruments at very low prices. Try Brookins, and you will get your money's worth. Address or call at C. J. Brookins' piano warerooms, Reno, Nevada.

Jacobs the Tailor.

The apparel does not always proclaim the man, but it unquestionably proclaims the tailor. A man in badly fitting clothes may be a great man, but he is a short sighted man else he would have gone to Jacobs and made himself solid with the public by getting some well cut clothes.

Is there anything more refreshing than a nice hot bath before you dress up? Go to Pechner's and try his hot, cold and shower baths; clean tubs; plenty of towels.

Pechner is still in the field with his baths. Call around and get a nice hot bath; it is the cleanest bath house in the State.

Picture Frames and Mountings. Can be bought for cost at Osburn & Shoemaker's.

Sewing Machines. Can be bought cheaper at Osburn & Shoemaker's than elsewhere in Reno.

Bird Cages and Feather Dusters. A fine assortment just received at Osburn & Shoemaker's.

A good house and lot for sale within two blocks of Virginia street, price \$500. Apply at this office.

Pechner has the cleanest bath tubs in the State. It is a treat to bathe in his establishment. Try it and be convinced.

Enterprising Druggist.

R. E. Queen the live druggist of the town is always up to the times and ready to meet the demands of his many customers. He has just received a supply of that wonderful remedy that is astonishing the world by its marvelous cures, Dr. King's New Discovery for Consumption, Coughs, Colds, Asthma, Bronchitis, Hay Fever, Phthisis, Croup, Whooping Cough, Tickle in the Throat, Loss of Voice, Hoarseness or any affection of the Throat and Lungs. This remedy positively cures, as thousands can testify. If you do not believe it call at R. E. Queen's drug store and get a trial bottle free of cost or a regular size bottle for one dollar. As you value your life, give it a trial and be convinced as thousands already have been.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all kinds of skin eruptions. This salve guaranteed to give satisfaction in every case or money refunded. Price 25 cents per box. For sale by R. E. Queen, west side of Virginia street, Reno.

A COUGH, COLD OR SORE THROAT should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. BROWN'S BRONCHIAL TROCHES do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always gives perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c. a box everywhere.

RICH AND RARE.

In selecting jewelry it is all important that the articles
chosen be of the latest styles and neatest designs, and so
we would advise all who contemplate making gifts in
that line during the holidays to call at Wm. Goeggel's
store and see the new and beautiful selections recently
received by him. The magnificent display of solid gold
jewelry set with precious stones, and of silverware, togeth-
er with the attractive line of rolled-plate goods, at prices
to suit the purses of all, is conclusive evidence of his ex-
cellent taste and determination to afford all Renoites an
opportunity to purchase the finest articles at home, at
reasonable prices. Indeed, his facilities are such as to
place him in advance of all dealers in his line, and to en-
able him to sell for less than anyone else in Reno.

ASSESSMENT NOTICE.

JONES & KINKAD GOLD AND SILVER MINING COMPANY Location of works, Pyramid Mining District. Principal place of business, Reno, Nevada.

Office of Jones & Kinkad G. & S. M. Co., Reno, Nevada, Dec. 10th, 1881.

At a meeting of the Board of Trustees of the Jones & Kinkad Gold and Silver Mining Company, held this day, an assessment (No. 14) of 25 cents per share was levied upon the capital stock of the Co., payable immediately in U. S. gold coin to the Secretary at the office of the Co., Room 3, Sunland building, Reno, N. V., and if not paid on or before January 9th, 1882, the same shall become delinquent and advertised for sale at public auction, on February 8th, 1882, at 2 o'clock P. M. of said day, to pay such delinquent assessment together with the cost of advertisement and sale.

By order of the Board of Trustees.
P. EVANS, Secretary.
Reno, Dec. 24th, 1881.

SUMMONS.

IN THE DISTRICT COURT OF THE SECOND and Judicial District of the State of Nevada, in and for the County of Washoe.

The State of Nevada sends to F. M. PECK, MINNIE H. PECK and ROSA HUTCHINSON, Greeting: You are hereby required to appear in an action commenced against you as Defendants by W. T. Kirkpatrick as Plaintiff in the District Court of the Second Judicial District in and for the County of Washoe, State of Nevada, and answer the Complaint therein within ten days after the service on you of this Summons, (exclusive of the day of service) if served in said County; or twenty days, if served out of said County, but within said District, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover judgment against Minnie H. Peck in the sum of four hundred and sixty dollars principal, and seventy dollars interest, on a promissory note which Plaintiff alleges one Minnie H. Peck, executed to Plaintiff February 12th, 1881, payable one year after date, with interest at the rate of one and one-half per cent. per month, payable quarterly, and providing that if the note be not paid when due, said complaint and interest should become due; said complaint also alleges that the said Minnie H. Peck has failed to pay the interest, whereby the Note became due; also alleges that said Minnie H. Peck executed a mortgage to secure said Note on the following described land: Beginning at the SW corner of lot one (1) in Block "E," thence the boundary runs northerly forty feet with the east line of Virginia street; thence at right angles east ninety feet; thence at right angles south forty feet to the north line of Second street; thence west along the north line of Second street ninety feet to the place of beginning, all in Block "E," in the town of Reno, Washoe county, Nevada, and also alleges that said Minnie H. Peck has since the execution of said note and mortgage married defendant F. M. Peck, and they are now husband and wife, and asking to have said mortgage foreclosed; also for an attorney's fee of fifteen percent, and relief as the Court may deem just and equitable, all of which will more fully appear from the Complaint which is on file in the office of the Clerk of said Court at Reno, in said county. And you are further notified, that if you fail to appear and answer said Complaint, the said Plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I, Geo. A. Rankin, have hereunto set my hand this 6th day of January, A. D. 1882.

GEO. A. RANKIN, ATT'Y FOR PLAINTIFF.
Reno, Jan. 7, 1882-lm

AYER'S HAIR VIGOR

FOR RESTORING GRAY HAIR

To its Natural Vitality and color.

Advancing years, sickness, care, disappointment, and every other cause, have the effect to turn the hair gray, and either of them incline it to shed prematurely. AYER'S HAIR VIGOR, by long and extensive use, has proven that it stops the falling of the hair immediately; it often renews the growth; and always surely restores its color, when faded or gray. It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty. Thus brassy, weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and established; thin hair thickens; and faded or gray hairs resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

As a Dressing for ladies' hair, the Vigor is praised for its grateful and agreeable perfume and valued for the soft lustre and richness it imparts.
